

HANDS-FREE

DOCUMENTATION FOR CHILDCARE CENTERS

USE JUST YOUR VOICE

to capture all the documentation you need. Growthchart enables you to record the observations you need while remaining hands-free.

ELIMINATE CLICKS

DITCH THE DISTRACTIONS

BRING PEACE OF MIND

to parents by removing distracting devices and screens from the classroom.

DOCUMENT IN REAL-TIME

GrowthChart's technology enables teachers to increase the quality and quantity of documentation. For example, a teacher can document, "Dylan and Diego, social and emotional, played with the blocks and built a castle," as the event occurs. This saves teachers from trying to remember what to document at the end of a long day.

SAVE TIME & MONEY
